

## **Adopt-a-Spot/Street Program Needs Volunteers**

**By: Becky Hawke**

**Date: April 9, 2007**

Radford's Adopt-a-Spot/Street program is looking for new participants to help keep the city clean!

The Adopt-a-Spot/Street program is designed to encourage resident involvement in litter cleanup of approved public properties by individuals, groups, and/or organizations.

In addition to reducing public tax dollars spent on collecting litter, the program also allows citizens to become invested in keeping the community attractive and ultimately improves the beauty and aesthetics of Radford.

With trash bags, orange traffic vests, and collection of the trash, the City provides all the necessary tools to keep the adopted spots clean. Along with a few other guidelines, participants are simply required to patrol their spot/street a minimum of 10 times a year.

Out of the 36 approved adoptable spots/streets located in the city, 15 are currently available for adoption. Anyone interested in adopting one of these areas are encouraged to contact Jim Hurt, Radford City Engineer, for more information and an application.
